

Hazar Fabrication Yard

General Description

>

The Hazar Fabrication Yard is available for NCGS Group and is located on the coast of the Caspian Sea in Hazar, Turkmenistan. Because of the location there is direct access to the Caspian Sea.

Total yard area is 10,000 m² and has a load bearing capacity of 40 t/m² at the fabrication area.

The Fabrication Yard has workshops, facilities, accommodation for workers and administrative buildings and is therefore fully equipped for the fabrication of jackets and topsides for offshore production units.
